

11 October 1966

NOTE FOR : Mr. Duckett

SUBJECT : National War College Briefing  
18 October 1966

1. I have been advised that there is a modification in the CIA briefing plan for the National War College this year, in addition to the fact that the briefing will take place at Fort McNair. The Director will address the group on the morning of 18 October; and instead of having separate briefings on S&T and DDI matters, Col. White plans to give a general presentation. However, he would like to have you and Ed Proctor accompany him and participate in a panel discussion after his briefing scheduled for 1400. In this panel White will field questions on the Clandestine Services, and you and Ed will cover S&T and DDI.

2. Details are still being worked out regarding arrangements for getting there and for luncheon. Will advise.
